colibrique v2

SYMFONY PROJECT

01 | OUR CONCEPT

- A new platform to help students in their daily tasks.

- Communication made easy between students, teachers and staff.
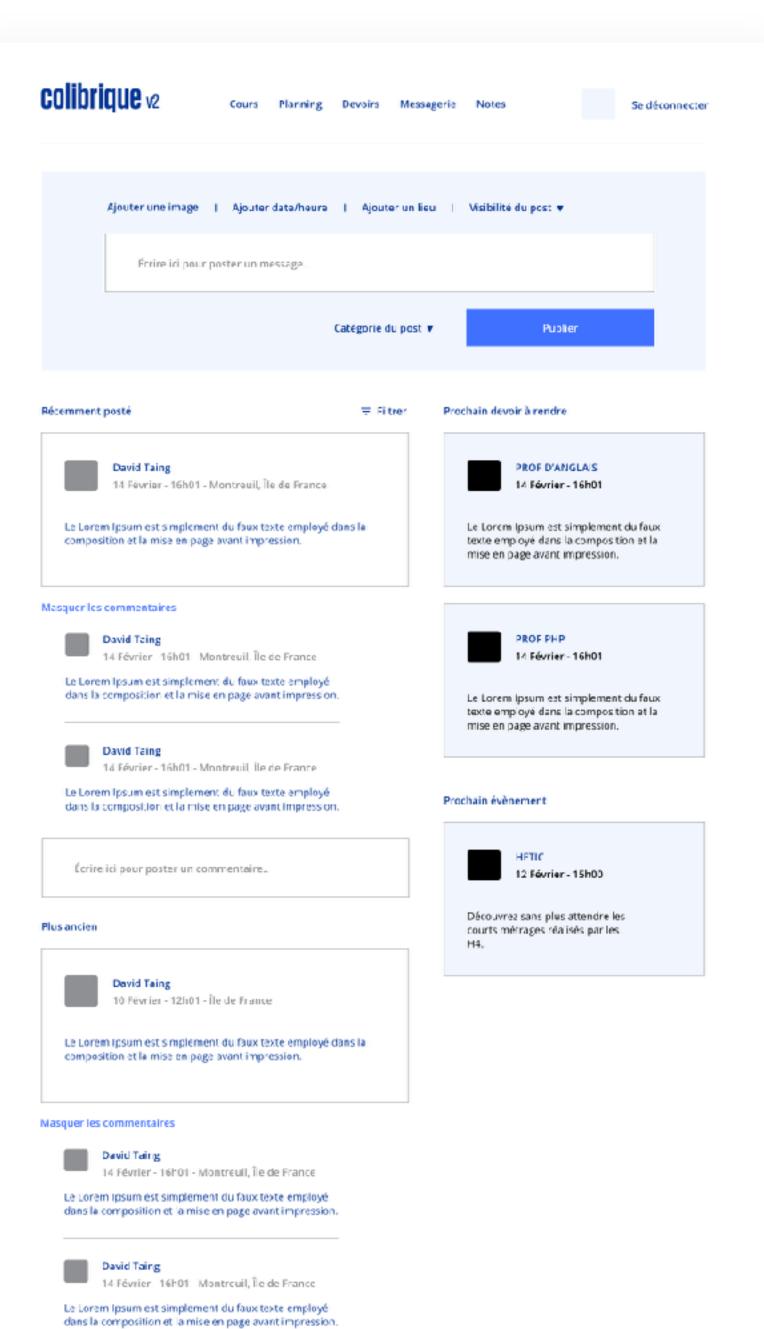

02 GRAPHIC ASPECT

Use of borders, geometric shapes, typography and plain color backgrounds.

03 MOCK-UPS

We created our website based on the japanese references we had.

SYMFONY PROJECT

colibrique v2

04 **TECHNOLOGY USED**

TECHNICAL
ASPECT

Symphony
Angular 2
Github
Node js
Slack
OAuth2

FOCUS ON A TECHNICAL ASPECT.

TECHNICAL
FEATURES

- Unit tests → PHPUnit

- Code syntax → Syntaxe Symfony2

- API rest + Oauth (Separated from the front) → API REST/OAuth2

- DataFixtures (Loading initial data) -->DataFixtures

TECHNICAL CHALLENGE WE MET

PROBLEMS & SOLUTIONS

We faced issue concerning the front development with the use of Angular2.

colibrique v2

08 COMMUNICATION PLAN

SYMFONY PROJECT

- Partnership with national education.

- Partnership with school groups like HETIC.

- Working with student associations.

THANK YOU !
